Imperial Russian Troupe at the Red Deer Exhibition To-day

Charged Undar Selling to Minors ACt

Sing Lee, a Chinaman keeping a restaurant on Holt Avenue, was charged before Justice Wallace yesterday with selling tobacco to a junior. Chief Anderson, who prosecuted for the city, proved the case. The defendant, whose case was presented by G. W. Greene, Solicitor, was fined the costs of the court. This should be a warning to others.

CARS OFF THE LINE.

No. 2788 freight train, from Calgary to Red Deer, met with an accident at eleven o'clock on Friday night of last week. The train, which was a very heavy one, was just entering the yard, when three of the cars jumped the rails, plowing up the track for a considerable distance. Mr. Hobkirk and the Master Mechanic, who happened to be in the city, made an investigation early Saturday morning, when it was found that the accident was due to a defective car. The traffic is not interfered with, as the accident happened clear of the main line, but it necessitates all the switching being done from the north end of the yard.

Wedding gifts will always be appreciated if purchased from Snell's jewelry store.

FOOTBALL

The great inter-city football match, between Edmonton and Calgary, came off Saturday last at Edmonton. The Calgary team, which had undergone careful training, turned out in the pink of condition, and put it over the Edmonton team by the score of 3 to 1. Although only playing ten men the greater part of the time, they appear to have put up the better game all around. Edmonton won at Calgary a few weeks ago, so they had better play a decider at the half-way city, Red Deer.

FIREMEN IN SONG AND TABLE DRILL.

Tuesday night of last week saw the hatchet buried between the ladder team and the hose team, who have twice battled for the baseball championship, the hose team getting the win each time. Mayor Galbraith, James Mann and J. E. Welton were among the invited guests and helped to smooth matters over. Everybody was in fine form at the table, and the singing afterwards by Messrs. Gee, Cosgrove, Meeres, Graham, Taylor and Venables, and the speaking of some of the fire brigade members, was greatly enjoyed. The ladder team were allowed to pay the expense. They have the opinion that there are some big eaters in Red Deer.

TRADE WHERE THE TRADING'S GOOD

"Short of money" did you say?

That's all the more reason you should "See us First"

Our "National" Pump Gun at $25 gives as good results as any repeater on the market. You cannot buy a better gun at any price, and we are willing to target them for you, if interested, and the pattern will endorse our statements. Put it to the test and get the most for your money.

Over fifty thousand fresh loads of Ammunition unpacked last week in 10, 12, 16 and 20 gauge.

FRIDAY EVENING, AUGUST 22nd, 1913.

8.00 p.m.—Exhibition hitch-up and run by the Red Deer Fire Brigade.

8.15 p.m.—Imperial Russian acrobatic dancers, Modelsky Troupe.

8.30 p.m.—Rex Comedy Circus.

9.00 p.m.—Grand Finale. Band Concert.

At last the long looked-for Fair Day has arrived, and everything is in readiness for the greatest ever held in Red Deer.

President W. E. Lord and his associates have been as busy as nailers completing arrangements and looking after the numerous entries that have poured in until there are now over forty per cent. more entries than last year. Queen's weather is all that is required to make the fair a great success.

FRED L. REX

Whose Comedy Circus at the Grandstand Attractions at the Fair is a Feature.

The grand stand attractions supplied by the Western Vaudeville Association, of Chicago, will be presented to an appreciative audience during the afternoon, commencing at 3 o'clock, under the direction of Fred L. Rex, stage director.

Fred L. Rex is considered the youngest animal trainer in the world, having trained animals from the smallest to the largest. Mr. Rex has made three complete tours of the world, playing all the best and leading theatres in U.S.A. and Canada. After filling his contracts for the U. S. and Canadian Fairs, he will sail for Australia, contracted there for twelve months, then completing the globe again.

Mr. Rex has two distinct acts for the fair, his first act consisting of beautiful performing ponies, dogs and cats, each well trained, also his original revolving table, which his little pony runs at the rate of a mile a minute, the most daring feat ever accomplished by any trained animal. Mr. Rex makes an offer of $25.00 for anyone staying on this table for one minute. His second act consists of the greatest bucking and unridable mule in the world, "Lightning Hopper," who carries off the comedy honors of the bill. He is meeting all comers, and $25.00 in gold is awaiting any Red Deer man or boy who succeeds in riding him once around the stage. The half dozen aspirants who attempted it yesterday quickly lost heart, though there was one colored youth who succeeded in getting on the mule's back for a second. This act causes screams of laughter, and was just a riot from start to finish.

IMPERIAL RUSSIAN DANCES.

Another strong feature of the fair will be the Imperial Russian dances of the Modelsky Troupe in their novelty act direct from the Imperial opera house, St. Petersburg, Russia. The dancing is the most remarkable feature of the act, being of the whirlwind, dervish style, but much faster and a great deal more acrobatic. Right now the country, and particularly New York City, is struck with the craze for Russian dances. This company, consisting of eight people, are exceedingly clever Russian whirlwind dancers, and their costuming is deserving of special mention. This will, no doubt, be one of the best dancing acts of the stage today and draw a wonderful crowd during the exhibition. Mr. Modelsky, manager of this act, being in Russia ballet master of the Imperial ballet.

This is the first time citizens of Red Deer have had the opportunity of seeing this whirlwind dancing, which has for some time been drawing such large crowds in the United States and Canada.

L.O.L. Labor Day Picnic

Great preparations are being made by Loyal Orange Lodge, Red Deer, and their friends for the grand picnic to be held in Waskasoo Park on Labor Day, September 1st. Dinner will be served at one o'clock in the grove, after which there will be racing, tug-of-war, baseball match between married and single men, and numerous other events. Some of the events in the programme will be boys' race under 14, girls' race under 16, married men and single lady, stillrace, three-legged race, fat man's race, 190 and over, blindfold race, etc.

The crowning feature will be the presentation of the prizes (won by the popular ladies) by the Provincial Grand Master of Alberta Loyal Orange Lodge.

The following candidates have been nominated in the ladies' contest: Mrs. James McConnell, Miss Hattie Fouchea, Miss Zella Sarchet, Mrs. Agnes Bellerby, and Miss Violet Nurcombe, all of Red Deer. Voting has started with a rush up in the hundreds and very even so far. Any one wishing to secure votes, may apply to any of the committee, who are L. R. Piper, A. T. England, John Piper, Samuel Quigley and Carl Lobb.

Everybody is heartily welcome to this picnic.

Half Holiday

Mayor Galbraith has proclaimed Thursday afternoon a half holiday, when all business places will be closed. This will give all business people an opportunity of attending the exhibition.

THE AD. JUDGING CONTEST.

The ad. judging contest in connection with the ads. in the Red Deer Exhibition Prize List will be keenly contested. A large number of entries have been received, quite a number coming from outside points. The judging will take place this week, and the announcement will be made through the local papers.

BIRTHS.

At Red Deer Hospital, Friday, August 15th, to Mr. and Mrs. Parker, a son.

At Red Deer Hospital, Saturday, August 16th, to Mr. and Mrs. Olivier, of Penhold, a son.

At Penhold, Tuesday, August 5th, to Mr. and Mrs. Frank Scott, a son.

MERCHANTS BANK MOVES TO NEW QUARTERS

Handsome $30,000 Block Great Addition to Red Deer Structures

The new building of the Merchants Bank in Red Deer was duly opened for business on Monday morning at ten o'clock sharp, Messrs. Latimer & Botterill getting in the first deposit. The change over from the old Bank building was made on Saturday last, under the supervision of Jerry Gorrell, acting manager in the place of F. M. Hacking, who is away on his holidays. The building is on the east side of Gaetz Ave., next the Gaetz-Cornett drug store, and presents a very fine appearance. It has a strikingly handsome front of cut sandstone, making it the most beautiful building in the city, the rest of the building being of solid brick. It is 37½ x 60 feet, and two stories high, with full size basement. The main floor is given up entirely to the banking business, and the upper storey is for the use of the staff, while the basement holds the heating apparatus and a vault for the storage of books, etc., in addition to the lavatories. The fittings of the office are of the latest class and most up-to-date, being made of fumed oak, and the interior walls are finished with metal lath and hard wall plaster, tinted buff to correspond with the fittings, while the main ceiling is panelled, giving a very fine effect. The building is lighted by sixty-four electric lights in chandeliers and brackets of pleasing patterns. The floor of the public part of the office, 25 x 25, is laid with solid Italian marble and looks very rich, the remainder of the floor being of hardwood. The main vault is also on this floor. The upper storey consists of four large bedrooms with large roomy closets, bath room, lavatories, trunk room, den and well fitted kitchen. There are two entrances, the main one of double swinging plate glass doors for the use of the general public, and the other one leading into a double porch for the use of the staff. The basement is reached by two different ways by flights of stairs from the upper storey and main floor respectively. A contrivance in the upper floor allows the staff to look straight down to the vault on the main floor. The Merchants Bank was the first to do business in Red Deer, but up to the present time they have had their offices in rented buildings. The whole of the work was superintended by C. A. Julian-Sharman, architect, the contractors being Horton & Willits. The plumbing and heating was installed by Smith & Gaetz; plastering cornice work, etc., by Bellerby & Rodd, and painting by Evenson & Hatland. The staff of the bank consists of F. M. Hacking, manager; M. H. Andrich, accountant; G. W. McDonald, teller; D. R. Mackay, ledger; F. G. Hodges, savings; D. Wright and J. H. Brown, juniors; Miss F. Cottingham, stenographer.

Nazarene Church: Foot of Ross St. Rev. W. B. Tait, Pastor. Sunday services: 10.30 a.m., adult Bible class and Sunday School; 7.30 p.m., song service and preaching. Subjett, "The witness of the Spirit, or how can we know we are saved." Prayer and praise service on Wednesday at 8 o'clock. All welcome.

Are You Working Uphill?

If you are not healthy you ARE working uphill.

Disinclination to work or play is not—in nine cases out of ten—caused by LAZINESS, but by sickness.

That "don't feel good" sensation won't send you to a doctor—you probably don't think it is serious enough.

But it is almost a sure sign of Indigestion, Dyspepsia or Biliousness.

Next time you "don't feel good" try 15 drops of Mother Seigel's Curative Syrup. You'll get relief—QUICKLY.

This old English remedy has been TRIED and PROVEN during the past 40 YEARS in every quarter of the earth.

It has a wonderful effect upon the stomach and stimulates the digestive organs to normal action.

Mother Seigel's Curative Syrup is almost purely herbal—it is a distillation of certain Roots, Barks and Leaves—Nature's remedy for a disordered stomach.

Order a bottle of Mother Seigel's Curative Syrup—try it out, then note the improvement in your health.

Price $1 00 Trial Size, 50c.

Asphalt Gas And Oil in North

Edmonton, Alta., August 15.—Roused by recent discoveries of rich undeveloped mineral, asphalt, gas and oil resources in various parts of the western provinces, scores of prospectors and experts known in many camps throughout the United States and Canada and Mexico, are making exhaustive searches in the Peace River country and other northern districts. Central and Southern Alberta are also being prospected as never before.

The dominion and provincial governments have their experts in the field, and even some of the northern Indians and half-breeds, who usually confine their operations to trapping furs, which is no mean industry when it is recalled that pure black fox whelps bring as high as $10,000 a pair in this and outside markets, are using the pick, pan and drill to uncover wealth hidden in the hills, canyons and river beds all over the west.

Several hundred thousand tons of provisions and supplies, including mining, drilling and sawmill outfits have been shipped from Edmonton to the outposts of civilization during the last 90 days and much more equipment will be forwarded by river scows and pack trains before the close of the season. Seventeen parties are prospecting in the Canadian Rockies, west of Edmonton, but most of the work at present is being carried on in the north country.

William Gordon, apioneer of the Fort McMurray district, said in Edmonton today that prominent English and American financial houses are backing several of the prospecting parties.

Shall The Professional Live Stock Showman Be Barred

(Edmonton Homestead)

The attention of the editor of the Homestead has been brought to the case of several professional showmen, who are not breeders, yet annually "make the fair circuits of the west," skimming off the bulk of the prize moneys in those classes usually not well filled, or at least poorly represented. One man in particular shows several classes of live stock and several breeds of each class, every year carrying off the bulk of the premiums in most of the sheep and hog classes at our western fairs, though his stuff is unheard of at the large fairs of the east, and is never of enough importance to warrant showing at the Chicago International where several of the leading Ontario breeders and importers compete against the world. Ordinarily, we are not in favor of asking "protection" from "big breeders" for home breeders, though it would seem that some exception might be made in a case of this kind. Home flocks of sheep and herds of swine are hardly in a position as yet to compete with a professional showman who does not breed his exhibits, merely buying up fair to good specimens and putting a high finish on them to win over the best of the home bred stuff that is shown in breeding condition. It is more than likely that a winter show will be held at Edmonton this winter to follow the Calgary show. Later, as the winter buildings are completed, winter shows will be held at Regina, Saskatoon and other exhibitions. When such a string of winter Fat Stock Shows are established it will be possible for the show managements to draw the line and compel over-conditioned stuff to be shown in classes where it will meet competition from animals fitted for the same purpose. No breeder who has to depend upon one herd for both show ring and breeding work is going to condition it for competition with the man who has no worry about getting off-spring from his show animals. This is the point that comes up in the case mentioned above.

First Ship to Pass Canal in September

Both Oceans Will Be Linked This Year—Fortifications May Be Delayed.

New York, August 13.—That the first ship would pass through the Panama canal in October was the opinion expressed yesterday by Lieut. Col. Eugene Wilson, U.S.A., on his arrival here aboard the steamer Tivives from Panama for a two months' vacation. Col. Wilson is an assistant to Col. Goethals in the construction of the canal.

Col. Wilson said that the two oceans would be joined in September and that by next spring the canal would be ready for the vessels of the world. The fortifications, he added, would not be completed until after the canal is opened.

Outlook Bright For West Say Financiers

During Past Month Things Have Improved and Horizon Seems Clean of Future Trouble

Winnipeg, Aug. 14.—"I think the outlook is decidedly hopeful and very satisfactory," said John Aird, general manager of the Canadian Bank of Commerce, who is visiting Winnipeg on the way to the coast. "During the last months things have greatly improved, and with the general prosperity which seems to be coming along, and a bumper crop which we have every reason to expect will be gathered safely, I see nothing on the horizon of an adverse nature. As you are aware," said Mr. Aird, "the European situation has greatly improved, and the peace treaty just concluded by the Balkan states should have the effect of transferring many millions to commercial enterprises.

WORST IS PAST.

"The worst is past in the financial stringency, and we are on the eve of better times," said F. J. Heffelfinger, of Minneapolis, president British-American Elevator company.

Referring to conditions in the States, he said that the wheat crop was probably the largest in its history, and that the government report had underestimated the spring crop wheat yields. He understood that the crop in the Canadian west was quite up to the average, and with good harvest weather, it would exceed in value that of last year, in which bad weather was responsible for great losses.

"We must not look for expansion this year, but I am confident that the banks are now in a position to take care of all legitimate needs, and I expect next year everything will be back to normal conditions."

Robert Stewart, of Chicago, director of Canadian Bank of Commerce, Canadian ELEvator company, and the Quaker Oats company, was on Wednesday in the city enroute to Saskatoon, where the Quaker Oats company have an extensive plant.

Legitimate Enterprises Safe.

Speaking of the financial situation, Stewart is of the opinion that there will be no lack of money for all legitimate commercial enterprises, but that there is nothing for speculation in wild cat real estate extremes, but he does not consider that there is anything to regret under that head.

"Nothing will stop the true development of the Canadian west. It is now getting a splendid class of settlers that will make things hum in the next decade.

"From all I can gather, there will be a splendid crop this year, and when it is safely harvested and returns from it find their way into ordinary channels of trade, there will not be much talk of lack of money in the Canadian west, at any rate.

Canada's Food Must Be Pure

GOVERNMENT TAKES ACTION

Number of Food Standard Definitions Issued Call for High Degree of Purity in Various Food Staples

Steps have been taken by the Inland Revenue Department to have standards for a variety of articles of food, including fruit and fruit products and canned fruits, vegetables, honey and lard, properly defined. These precautions have been embodied in a series of regulations approved by the Governor General in Council. The advantage to the general public of Canada is clearly shown by the scope and demands of some of the regulations. Concerning canned fruit, the regulation states: "Canned fruit is the sound product made by sterilizing clean, sound, properly matured and prepared fresh fruit, by heating with or without sugar, and keeping in suitable, clean, hermetically sealed containers; and conforms in name to the fruit used in its preparation."

JAMS AND MARMALADE.

The definitions of jam and marmalade state that they are the sound product made from clean, sound, properly matured and prepared fresh fruit, a fruit pulp or sugar with or without spices or vinegar; by boiling to a semi-solid consistence; and conform in name to the fruit used in their preparation.

It is further stated:—

10. When jam, marmalade, fruit butter, or jelly contains other fruit or fruit juice than that which gives its special name to the article, the fact of the presence of such other fruit shall be stated upon the label, in lettering as large and as distinct as that used in naming the fruit principally present. This requirement does not, however, apply to the use of fruit juice, up to the amount of ten (10) per cent. of the jam, etc., used instead of water in the manufacture of the jam, etc.

11. When the sugar in preserve, jam, marmalade, fruit butter or jelly is wholly or partially replaced by glucose, or by any other substitute for sugar, the fact of such substitution shall be stated upon the label in plain lettering.

CANNED PEAS.

As regards canned peas the regulation defines:—

1. Canned peas, unless specially designated as below, shall be 'prepared from the harvest of the year in which they are canned, and shall be the unripe peas of the crop of that year.

2. Ripe peas may be canned, provided that the label shows quite clearly that they are such. This may be done either by labelling them as canned ripe peas, or by the use of the word "soaked."

RIPE AND UNRIPE PEAS.

3. Mixture of ripe and unripe (or green) peas, shall be plainly labelled in such a way as to show that they are such.

A former regulation in regard to lard is amended by adding a provision that "neither lard, leaf lard nor compound lard shall contain any added coloring matter."

Honey, as defined, is entirely the product of the work of bees operating upon the nectar of flowers and other saccharine exudations of plants and contains not more than 25 per cent. of water, not more than 8 per cent. of sucrose (cane sugar), not more than a quarter of 1 per cent. of ash and not less than 60 per cent. of invert sugar.

(Contributed)

"I MADE HIM WHAT HE WAS."

A while ago a saloon-keeper in Delaware, who patronized his own bar very liberally, stepped into a back room where some men were at work about a pump in the well. The covering had been removed, and he approached to look down, but being very drunk he pitched down headforemost. He had become so much of a bloat by the use of strong drink that it was impossible to extricate him in time to save his life.

There was great excitement in the town. Men and women who had never been inside of his saloon before were the first to rush to his rescue, and to offer sympathy to the bereaved family. As he was being dragged from the well and stretched out dead upon the saloon floor, a wholesale liquor deal from Philadelphia stepped in. After the first shock of this finding one of his good customers dead, he turned to a lady, a Crusader, and said, pointing to the wretched victim, "I made that man what he was. I lent him his first dollar and set him up with his first stock of liquors, and he's now worth ten or fifteen thousand dollars."

Looking him full in the face, she responded:

"You made that man what he was—a drunkard, a bloat, a stench in the nostrils of society, and sent him headlong into eternity. What is $15,000 weighed against a lost soul, a wasted life, a wife a widow, and children orphans?

He turned deadly pale, and without a word left the house.

And so we ask, what is all the business and all the revenue, to the millions whose homes are despoiled, whose children are beggared, and whose loved ones are sent headlong to a drunkard's grave and a drunkard's doom. Put yourself in the place of that mother whose son is pursued day and night by this demon until the hairs of his head become serpents, and live coals burn into his flesh, to the very bone, and, fighting devils, he leaps into his grave, and then ask: Are my hands clean? Do I love my neighbor as myself? Am I doing all I can to stay the tide that is bearing so many down, and may yet bear me down?—Christian Woman.

THE GOOD FELLOW.

(By Walt Mason)

You're welcome at the booze bazaar while you have got a roll; they'll say you are a shining star, a genial, princely soul. The lordly breed gent who sells the suds will call you "Cap" or "Judge," while you have bullion in your duds to buy his baneful budge. And all the mirthful hangers-on will cheer your wit and sense, while merrily the demijohn goes round at your expense. They'll greet with wide ecstatic grin the stalest of your jokes, while you have cash to buy the gin of fix the crowd with smokes. But when you little roll is lost, and you all busted are, there falls a chill antarctic frost about the shining bar. And when you fix your thirsty gaze upon the bottled shelf, the gent who smirked in other days, growls fiercely: "Chase yourself!" The loafers eye you with disdain, who once said you were It, and grumble that you cause them pain, when you display your wit. The days when you showed up so strong no one can now recall; and if you hang around too long they'll push you through the wall. Good fellows go the same old gait, the gay, righ-rolling chumps; and they will meet the same old fate, and bump the same old bumps.

"Where Are You Going To?" is the arresting title of a book by Elizabeth Robins, (Toronto: William Briggs) which deals in story form with the problem of the white slave traffic. Many good people do not realize that this evil is rampant even in Canada, but they will find in this story a suggestion, very wisely made, as to how the nefarious traffic is carried on with apparent impunity.

Rev. Wm. Rochester said the other day in Winnipeg that if someone, in later years, were to write of the organizations that had conferred lasting benefits on Canada, the Lord's Day Alliance would be placed close to the top of the list.

The grand opera singers of today live and work in an atmosphere of very low morality, according to one of the leading opera managers in New York. This same man declares his purpose to try to change that condition and to keep his own operas clean and wholesome.

Predicts Best Crop ever Seen in Canada

Government Official Eulogizes Prospects—Apples Will Be Plentiful.

Ottawa, Ont., Aug. 13.—J. H. Grisdale, director of experimental farms, who has just returned from a western trip, says he made big circuits in all three prairie provinces, north, south, east and west, and never saw the prospects better.

"It will be the finest crop we have had, unless something interferes. Everything was well advanced. At the time I was there," he said, "the wheat was heading out beautifully, and we ought to have a bumper crop. I could see in every part the differences between the man who had cultivated and the man who had not. The good farmer is coming into his own this year and the bad farmer is really going to suffer. The difference in the crops will be striking."

Out west he looked for locations for two new farms in the Manitoba and a couple in Saskatchewan. "In Southern Manitoba we are locating a farm for horticulture," he said, "and that reminds me that on several of these prairie farms I saw some nice crops of apples. We are growing apples at our farms at Brandon, Indian Head, Lethbridge, Lacombe and Rosslyn. At one farm, Mr. Stevenson, of Morden, Manitoba, I saw an orchard from which he will obtain hundreds—not a hundred, but hundreds—of barrels of apples this season."

C.P.R. DOUBLE TRACKING.

Moose Jaw, August 13.—Double tracking on the C.P.R. will be completed to Swift Current by fall, according to a statement made today by G. Taylor, general superintendent of the Saskatchewan division of the C.P.R. The double track is now in operation west as far as Chaplin, 54 miles, and east to Regina, 42 miles.

The more nervous the cow, the greater her capacity, and the more need for gentle handling.

Few people now think they know all about feeding cows, and those who know most are the most anxious to learn.

The exercise of good judgment is most necessary in handling the dairy herd profitably.

Irregular times of milking are always damaging.

Any fright, excitement or discomfort will lessen the flow of milk.

The future cow depends upon the way in which the calf is reared.

The cow's digestion, to be profitable, must be perfect.

Synopsis of Canadian North-west Land Regulations.

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy maybe made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price $3.00 per acre.

Duties.—Must reside upon the homestead or pre-emption six months in each of six years (from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth $300.00.

COUNCIL MEETING

The regular Council meeting was held on Thursday evening last, with Mayor Galbraith in the chair, and Aldermen Botterill, Carscallen, Smith, Carswell and Lord in attendance.

The manager of the Merchants Bank wrote re. the city's finance.

A letter was received and read from E. Carswell, Secretary of the Red Deer Butter and Cheese Manufacturing Association, pointing out the success of his Association and what it meant to the City of Red Deer. He deprecated the fact that some of the City Aldermen had been making derogatory statements, and that petty rumors had consequently been spread as to the sanitary condition of the Creamery. He wished to set against these rumors the Provincial Inspector's report, giving 92 points out of a possible 100 for cleanliness and sanitation. The Inspector's report was enclosed for the Council's perusal, which was also first class.

Jesse Halstead, City gardener, applied for three weeks' leave of absence. Referred to Commissioners.

The Secretary of the Union of Alberta Municipalities wrote saying that the Convention would meet at High River on August 26th and 27th, and invited the Council to send delegates. Mayor Galbraith was appointed by the Council to attend.

Correspondence re. debentures were received and filed.

A letter was received from the Fire Underwriters Association, of Winnipeg, re. a plan of waterworks distribution which they had expected to receive from the City Engineers. It was found that the plans had been sent, according to promise, but misdirected. The City Clerk has put the matter right.

Bandmaster Welton wrote the Council pointing out the fact that the Sunday afternoon concerts had proved the most popular, and by request the Band were again playing in Gaetz Park, and asked that the seats be taken there from the Land Office Square.

A further letter was received from Mr. Welton, asking that a part of the grant due them be paid for salary and instruments.

R. H. Coats, editor of the Labor Gazette, asked for a monthly report of the building permits to be sent them. Filed.

A letter was read from Alderman G. H. Murrin, tendering his resignation to the Council with regret, as he would be absent from the City for the balance of the year.

On motion of Aldermen Carscallen and Botterill, Alderman Murrin's resignation was accepted.

Chief of Police Anderson presented his monthly report in writing to the Council. There were only six arrests during the month, five drunks and one peddling without a license. Twelve horses had been impounded and one cow. One case of forgery had been reported, but a settlement had been made and the accused let go.

WATER TEST.

The following report was received from the Provincial Laboratory on samples of water sent up from Red Deer:

Sample A, City Main, 3rd Street South—Hardness, 100.0; total solids, 227.0; loss of ignition, 100.0; alkaninity, 184.0; ammonia free, .070; albuminoid ammonia, 111; nitrites, none; nitrates, .04; chlorine, 1.8; sulphates, none; colon bacillus, negative.

Sample B, 4th Street North—Hardness, 102.8; total solids, 292.0; loss of ignition, 151.0; alkalinity, 186.0; ammonia free, .056; albuminoid ammonia, .066; nitrites, none; nitrates, .01; chlorine, 1.8; sulphates, none; colon bacillus, negative.

This water is moderately soft, contains a low amount of dissolved mineral matter, is apparently well suited to domestic use, and the samples show no contamination.

D. G. REVELL, Director.

COMMISSIONERS' REPORT.

The Commissioners brought in the following report, which was adopted without amendment:

The Manager and Secretary of the Western General Electric Co. interviewed us recently regarding inspection of electric wiring in Red Deer. As noted in the corresoondence, Mr. Stainton, Inspector of Fire Underwriters' Association, is sending us a copy of their uniform by-law governing this. When this is received, it will be laid before you for consideration.

We have discussed with the Western General Electric Co. the question of installing tungsten lights in place of ares where additional street lighting is required for this year. We hope to be able to report fully on this question at the next regular meeting.

We gave Wood, Gundy & Co. an exclusive option on our unsold debentures until September 15th. All correspondence in connection with these debentures is submitted herewith.

Hydrants have been installed near the Alberta Ladies' College, at corner of Gaetz Ave. and Victoria Ave., and the one on Victoria Ave. moved to the end of that street near the plant of the Cement Builders, Limited.

We have discussed the city charter question with Mr. Greene, and he is arranging to prepare the charter for your consideration as soon as possible.

Pursuant to your instructions, we submitted the letter of Mr. Quigg re. B. Trimble's complaint to Greene & Payne to reply to.

No bidders appearing at the sale of land for arrears of taxes on July 25th, all lands advertised for sale on which arrears and costs had not been paid were sold to the City of Red Deer.

We have devised a card index system giving information regarding all buildings in the City. These cards will be filled out as soon as the information is compiled, and can then be kept up to date. Samples are submitted herewith.

We authorized Fire Chief Meeres to arrange to have the hay on the school quarter owned by the city put up on shares. He reports that we should get in this way a year's supply from there at very little cost. Next winter when the brush is being cleared out of Waskasso Patk enough willow stakes can be cut to furnish posts for fencing this land.

The cinder screens in the wells at the intake have been completed, and the wells will be covered by tomorrow night. The wells will then be completed and the cost ascertained.

We have requested Chief Anderson to strictly enforce the law regarding the use of rifles by boys.

We recommend that we be authorized to have the Hospital Hill graded and gravelled as soon as possible. About $200.00 should do this work and make the hill passable in any weather.

F. Anquetil has been attending to weed inspection and notifying owners of property where weeds are growing to have them cut.

We have had the wooden sidewalks inspected and repaired where necessary.

We submit herewith monthly report of Chief of Police. We would ask if it is your wish to have the curfew by-law enforced.

We submit herewith monthly report of M.H.O. for July. There were no cases of contagious or infectious diseases during the past two months.

We submit report of analysis by the provincial laboratory of two samples of water from the mains. Both samples, we are pleased to note, show no contamination, so the citizens using City water are assured their supply is absolutely pure.

We submit herewith report from Fire Chief Meeres, and beg to recommend that the extension ladder recommended by him be ordered.

Mr. Herbay, of the Park Branch of Dept. of Interior, visited the proposed Canyon Park yesterday in company with the Mayor and Mr. S. W. Paisley, who was most courteous and helped in the investigation made by Mr. Herbay. Mr. Herbay will report later on the proposition.

We submit herewith draft agreement re. natural gas franchise, and beg to recommend that it be not considered, but rather that when the financial conditions became better, the Council consider the question of boring for gas itself, as we believe that municipally-owned wells will be of great advantage to the ratepayers.

We submit list of accounts for your authorization to pay.

We recommend that the request of the Forest City Paving Co. to be allowed to substitute a bond for part of the amount withheld on their contract be not granted.

We submit a by-law authorizing the holding of an election to fill the unexpired term of office of Alderman G. H. Murrin.

We submit list of receipts and disbursements for July.

We have arranged with the Merchants Bank for credit for current expenditures up to Oct. 1st.

F. W. GALBRAITH,
A. T. STEPHENSON,
Commissioners.

A deputation, consisting of J. F. Day, K. B. Welliver, A. Wylie and Geo. Lindsay, on behalf of the Agricultural Society, met the Council and asked for further assistance to be enabled to get more accommodation for horses, cattle, etc., as they had more exhibits coming than they could accommodate. J. F. Day thought that if they could not get assistance to accommodate these exhibitors, they may as well quit altogether.

K. B. Welliver made a strong plea for assistance in this matter, and considered that if they had to turn down these exhibitors this year, he was afraid that it would go decidedly against us another year.

Alderman Lord, as chairman of the Society, was asked to say something about the matter, and spoke at considerable length of the valuable work the Society was doing and the necessity of the Council assisting them.

Mayor Galbraith disagreed a number of times with Alderman Lord, but recognized the work of the Agricultural Society to the community. He could not see, however, how the Council under the present conditions could help them any more, as it was utterly impossible to obtain more money from the bank.

Commissioner Stephenson asked permission to place before the Council and deputation the City's standing before the matter was settled, which was granted.

The whole matter was gone into fully, and the deputation went away satisfied that they had received every consideration possible.

It is probable the association will make the needed additions for stock themselves, with the understanding that the Council will make every effort to protect them from loss.

Moved by Alderman Smith, seconded by Alderman Lord, that the Red Deer Band be paid $200 on account of grant. Carried.

R. Edwards, of Calgary Eye-Opener, wired the City Clerk, asking the distance of Verity Park from the post office. Wire was answered, and full letter forwarded afterwards.

Moved by Alderman Lord, seconded by Alderman Smith, that the necessary arrangements be made that the curfew bell by-law may be enforced without delay. Carried.

ACCOUNTS.

Payment of the following accounts was authorized:

City of Red Deer $2.85, City of Red Deer 1,703.75, Wage Sheet 130.89, Bank of Montreal 200.60, W. Piper 30.00, Merchants Bank 392.33, John Thomas 19.25, Day Hardware 14.26, Dr. H. George 75.00, Western General Electric Co. 16.79, Reid Bros. 2.00, Cushing Bros. 48.77, G. B. Parker 2.55, F. J. Teahen 12.50, General Supplies 2.94, Baird & McKenzie .75, Red Deer Tent and Mattress Works 2.25, T. A. Gaetz 26.00, Jos. Wallace 14.50, B. P. Alford 23.07, Forest City Paving Co. 6,639.00, City of Red Deer 38.50, City of Red Deer 1.75, City of Red Deer 36.65, City of Red Deer 92.00, Wage Sheet for July 2,378.50, J. C. Slifka 4.12, J. C. Slifka 10.13, Merchants Bank 692.92, Smith & Gaetz 22.07, Gutta Percha & Rubber Co. 3.43, W. Springbeett 3.15, M. Card 3.00, C. Wong 1.70, City of Red Deer 17.10, Steam Laundry 2.51, Chapman & Co. 51.00, Mechanical Garage 5.50, Jas. Cruickshank 2.00, Gaetz & Cornett 2.75, C.P.R. Telegraph Dept. 8.46, McLean Bros. 10.00, Broughton & Son 1.25, Greene & Payne 376.17, M. A. Munro 80.00.

A by-law, No. 332, to fill the vacancy on the Council caused by the resignation of Alderman Murrin, and the appointment of a returning officer for same, was read and finally passed:

The nominations of a Councillor to fill the position vacacted by Alderman Murrin will take place on Aug. 26th, and if more than one person is nominated, election will be held Tuesday, September 2nd.

Alderman Smith asked if the sewer extended along in front of the Methodist Church.

Commissioner Stephenson informed him that it did, which was good news to Alderman Smith, as it would probably save the Methodist Church some money in draining the property.

Alderman Carswell asked if it was the intention to put in catch basins on Gaetz Avenue South, as the street as graded badly needed draining.

The Mayor said it was the intention to put in the catch basins at once.

Alderman Botterill advised the removal of the old buildings surrounding the fire hall.

After some discussion, the matter was left to the discretion of the Commissioners.

Alderman Lord thought that the Council should have one or representatives on the Agricultural Society Board next year similar to that on the Hospital Board.

Mayor Galbraith thought it might be a good idea, and he also thought the Council should have a representative on the School Board.

The question will be discussed at a future meeting.

Council adjourned at 11.30.

COL. HUGHES ENDORSED

Liberal Press Praises His Method of Dealing With Intemperance in the Militia

The firmness and courage of Col. Hon. Sam. Hughes in dealing with intemperance in the militia and permanent force of this country and his promptness in appointing a successor to General McKenzie, chief of the staff, has met with an immediate response throughout Canada. The Manitoba Free Press, which can't be accused of friendliness towards Col. Hughes, has the following remarks to make in a recent editorial:

"If he will always, in thus striking out for himself, act as commendably as he did in regard to the recent disorderly coalition of Mars and Bacchus at the military dinner at Halifax—at which he was the host and General Sir Ian Hamilton the guest of honor—and a few officers among the other one hundred and twenty-five guests became noisily hilarious—and as he has acted in the matter of a successor to Major-General Mackenzie, as Chief of Staff in Canada, the Canadian people will regard the present Minister of Militia as holding down his job in the Dominion Government in an eminently satisfactory manner."

Keep Out the Weeds

Weeds unchecked will ruin the crop.

It isn't sufficient to plow and sow well in Spring and Fall and leave the rest to nature.

There are weeds to fight.

There are weeds in Business, too—weeds of competition and opposition—of public indifference from without, and of lack of enterprise from within—weeds that unchecked seriously retard business growth.

Cultivation is the only effective weed-killer. Keep cultivating and the weeds never get a chance to thrive.

There is a combination plough and harrow, fertilizer and spray, for every business—an effective weed-killer that will keep out the weeds.

It is Advertising

It is not enough to plough and sow well with advertisements in Spring and Fall and leave the rest to human nature.

Human nature and the respect your customers bear you are not proof against the Summer weeds that can thrive on rest and apathy.

You must keep busy in the hot weather—you must keep cultivating.

Turn Summer dullness into activity by Summer Advertising. Plan Summer attractions and plant for a crop of Summer profits, and the Advertising cultivation will keep out the weeds.

Keep Cultivating

WEDNESDAY, AUGUST 20th, 1913.

RED DEER FAIR.

To-day the long talked-of fair will open in Red Deer, and with fine weather will prove the largest ever held in Central Alberta. Already the accommodation for cattle, horses and other stock is taxed to the utmost, and if it had not been for the energy of the directors there would not have been accommodation for more than half the stock applying for entry. There is no doubt in our mind but that Red Deer Fair is destined to be the greatest stock fair in the province. The numerous attractions are greater than ever before, and every citizen should be sure to attend, and take along the family also, as he will get his money's worth. It is now up to the citizens, even if there is a probability of rain, to be on hand anyway, as there is plenty of accommodation for all.

TIT FOR TAT.

Down in Halifax last week, at a political meeting, Hon. Mackenzie King, Hon. Sydney Fisher and Sir Frederick Borden condemned the Borden Government. How very sad. But then we could hardly expect these distinguished and estimable gentlemen, with big sounding titles, to do anything else. It will be remembered the people of Canada also did some condemning in September, 1911, when they informed these same estimable gentlemen by their votes that they didn't want their services any longer in the Parliament of Canada. Under the circumstances, therefore, we will make a valiant attempt, with all due humility, to stand their grouch, feeling perfectly confident the electors will givethem another slam when they get a chance.

DOMESTIC SEWAGE DISPOSAL PLANT.

In a large number of western towns where growth of population has been in advance of municipal improvements, such as water and sewer service, and particularly where buildings are somewhat scattered, the problem of disposing of household waste and sewage in an economical and sanitary manner has been a matter of importance. Many householders could enjoy all modern conveniences by installing water from the town where no sewer exists, or in the country by pumping by hand or power, if they knew of some sanitary manner of disposing of sewage.

The specific difficulties met in Western Canada are: The depth to which the tank has to be constructed on account of the extreme cold during winter. The clayey nature of the soil.

Many so-called septic tanks are nothing but cess pools, with their attendant disadvantages, and make no provision for sanitary disposal.

The difficulties already mentioned have, we think, been satisfactorily solved by the design of a sewage disposal plan by Messrs. Seymour & Dawe, which is made in a knock-down, compact form, and which can be easily shipped; it is a modification of the plant approved by the Ontario Provincial Board of Health and has, as already stated, the advantage of being ready to install, the purchaser only having to provide excavation. We understand Seymour & Dawe will have a working model on exhibition at the Fair Grounds this week, which should be investigated by citizens desiring such a system.

Canada's total trade this year is ten per cent. in excess of last year, which does not look as if the country is going to the eternal bowwow as some Liberal organs would like to have us believe.

The navy will cost the British people this year $230,000,000. There is nothing mythical about such an emergency, and yet Canada, thanks to the partisan senate, does nothing to relieve either the British taxpayer or to help the Empire.

"Where is the emergency?" the Liberal newspapers are asking, on behalf of the Liberal blockers. Probably they are anxious to know where the emergency is so they can run away from it, in which case we would recommend them to get aboard the Laurier navy.

The White surplus is an indication of over-taxation, whereas the little Fielding surplus was a clear and convincing proof of the prosperity of Canada under the Liberal Government. The thing is as plain as day. All you have to do is to read the Liberal newspapers.

The Borden Government has set about solving Western problems in a practical manner. It has done more on the Hudson Bay Railway than the Liberals in fifteen years, and now it is energetically endeavoring to solve the transportation and grain problem. No time is being lost in carrying out the policy of interior terminal elevators.

The defeat of reciprocity is bringing millions of United States capital to Canada for the employment of Canadian workmen. And to think that the Laurier Government went to the country on a policy of keeping this money out of Canada.

Efforts are being made to recruit the Royal Northwest Mounted Police in England. Why not have offered some of the positions to the Canadians who, according to the Laurier Opposition, are waiting around to mann a Canadian navy?

What about that educational campaign that was to be conducted by the Liberal blockers all over Canada during the summer? Seems as if the Liberal leader's time is sufficiently occupied in educating the angry supporters in Montreal and Toronto up to the point where they will be willing to stay in the party.

The war in the east seems to be over for the present, but with Turkey stubbornly holding possession of Adrianople, defying the powers and threatening to resume the field unless reparation is made for the atrocities in Thrace, the prospects for further war in the Balkans seems to be increasing.

Anything the British Admiralty doesn't know about naval matters, can be readily learned upon application to Laurier and Co., Ottawa, Canada. This firm has been building navies and conducting naval wars successfully for centuries and is in a position to give valuable hints to a comparatively inexperienced and uninformed body like the Admiralty.

The Liberal organ in Moose Jaw, which is said to be owned by Premier Scott, adopted the smallest kind of political tactics recently and which have re-acted like a boomerang. To get a thrust at the Borden Government, the Times said that the city was a bankrupt and the country generally going to the bowwows. The city council, the board of trade and every Moose Jaw organization have since been putting the Times in its place. To publish a libel and falsehood on its own city for a partisan purpose is about the limit of political rascality.

NEW OBSERVATION CAR

Now Runs Between Calgary and Edmonton

A new observation car has been added to the equipment of the C. P. R. and will be used on the journey between Calgary and Edmonton. As an example of modern luxury in the way of travelling, this car will be hard to beat, and offers many attractions to the traveller which have never yet been excelled. Divided isto two large sections, one reserved for devotees of my Lady Nicotine and the other where the soothing weed is prohibited, the car will meet all tastes. The larger section has 22 large upholstered chairs which may be made to recline as the spirit of the occupant dictates or his comfort demands.

Between the two sections is a buffet at which tea and coffee may be obtained to cheer the weary passenger, or iced drinks partaken to slake the thirst of the dry ones. A library, stocked with all the latest books, will provide thought for the frivolous and the grave, and, in short, the comfort and entertainment of the travellers will be looked after in very much the manner offered at an up-to-date club.

MONOGAMY NOT SACRED, SAYS WOMAN WRITER

Article Following Interview With Sheik Causes Stir in Britain

(By Herbert Temple)

London, Aug. 16.—There is no better evidence of the remarkable change that is taking place in English women and girls than the existence of militancy and the appearance of a movement led by a young English girl for the introduction of polygamy in England.

Militancy among suffragettes has been confined to a very small number of women and to a certain class of women. The advocate of polygamy to whom I refer, however, is a very well known writer, although a quite young girl.

An interview with the Sheik Ul Islam, the supreme priest of the Mohomedan church, cabled first to New York and then to London, in which the sheik pointed out the Mohamedans have polygamy and very little immorality, whereas we Europeans have monogamy and widespread immorality, was read with a great deal of interest, particularly by women. It was very widely commented upon. The young woman writer who would have polygamy says:

YOUNG WOMAN'S VIEWS.

"Let us approach the problem fearlessly and frankly. The fact is that the present standard of morality is false and unreal, or that whilst nature produces what is ultimately a surplus of women over men, monogamy is not a suitable system for all our people.

"No system can be suitable which condemns to death, or non-life, so large a portion of the community as we have, the surplus women, form.

"Monogamy is not a sacred institution, and there is no real necessity for hundreds of thousands, even millions, of women to be sacrificed upon its honor. Nor would anything of value be destroyed by its removal and by the setting up of a more suitable moral and legal standard.

"We are told that the ideal condition is one man, one wife. Well, whatever alteration takes place, there can be nothing to force people, if they think fit, to preserve that equation so far as they themselves are concerned.

WHERE DIFFICULTY LIES.

"But those who adopt that standard for themselves have no right—human or divine—to try to impose it upon others who are able and willing to adopt another, especially when imposing such standard is against nature itself and actually condemns a large number of human beings who have equal rights themselves to exclusion from life.

"I do not believe the difficulty lies with men. I think that each man deep down in his heart admits—if only to himself—that monogamy is unnatural and has failed.

"The difficulty lies with the fortunately married women.

"If she and her husband are satisfied with one another, then whatever the legal right may be, they would never have anyone else.

"If they are not satisfied with each other, then monogamy will not bind them in fact.

"When all bachelor women and widows have the parliamentary vote, and their right to assist in the making of the nation's laws, one of its first influences will be to remove and destroy the artifical and arbitrary standard of monogamy and to establish polygamy as the legal and proper right and custom of an advanced people."

Lethbridge Daily News Suspends Publication

(Lethbridge Weekly News)

Some people, either maliciously or through inexcusable ignorance, have been industriously circulating the story that the Morning News suspended publication because it was bankrupt, or rather that the company publishing it was. I could have no better wish for the business men of Southern Alberta than that they all were in as sound financial position as the company back of The News. As a matter of fact, the daily issue of The News was withdrawn purely and simply as a matter of economy; the fact that the same company is still doing business in Lethbridge, producing the Weekly News, and that all indebtedness of the business is being met, as usual, with cash payments, dollar for dollar, should be sufficient answer to this foolish talk. One of these days there will be a Daily News again in Lethbridge. This business is not one of the flit-by-night sort, nor have the men back of it lost their faith in the ultimate destiny of Lethbridge as the finest and best city-to-be of Alberta. Now I hope the local and outside prophets of evil will get this and get it right.

ACCIDENT ON C. AND E. LINE.

Early Saturday morning three loaded cars were thrown off the track six miles south of Olds. The accident happened at mileage 50 and the cars were drawn by extra north engine 658. The track was cleared in three hours and only a slight delay was occasioned to the passenger train leaving Calgary at 8 o'clock this morning. No one was hurt. The cause of the wreck, which is unknown, is being enquired into.

NOTICE!

In the matter of "The Companies Winding up Ordinance 1903.
and
In the matter of the Cement Builders, Limited.

Notice is hereby given that the creditors of the above named Company, which is being voluntarily wound up, are required on or before the twentieth day of September, 1913, being the day for that purpose fixed by the undersigned, to send their names and addresses, and the particulars of their debts or claims, the nature and amount of the security (if any) held by them respectively, with the valuation thereof on oath, and the names and addresses of their Solicitors (if any), to the undersigned, the liquidator of the said Company, after which date the liquidator shall be at liberty to distribute the assets of the company or any part thereof among the parties entitled thereto, having regard to the claims of which the undersigned has then notice.

Notice is further given that the undersigned shall not be liable for the assets or any part thereof so distributed to any person of whose claim I have not had notice at the time of distributing the said assets, or part thereof, as the case may be.

Dated at Red Deer, Alberta, this 19th day of July, 1913.

A. W. G. ALLEN,
Liquidator.

Doctor Tells of Possibilities of Surgery in Future

London, Aug. 13.—Dr. Voronoff, of Nice, who read a paper before the medical congress on the transplanting of the vital organs of one animal to another, in a statement to The Daily Express declares that a new era is dawning for surgery when those who are suffering from disease will have diseased organs replaced by a corresponding part from a person killed accidentally. When the wounded general is made whole on the battle field by the grafting of a limb of a dead soldier; when barren women are rendered fruitful, and the dread scourge of tuberculosis of the kidneys is cured by the grafting of new kidneys.

ANOTHER CANCER CURE.

Hobart, Tasmania, Aug. 14.—Roentgen rays filtered through silver, copper or tin plates have been used by Dr. Roberts, senior surgeon of the general hospital here, in the treatment of cancer, and the surgeon says he has successfully treated 40 persons suffering from the disease.

CANADIAN MARKET THE MORE IMPORTANT

Of More Value to the American Farmer Than the American Market to the Canadian

Mr. C. C. James, special Agricultural Commissioner for the Dominion Government told the Canadian Club of Toronto that during the ten years ending with 1911 the population of Canada increased by nearly 2,000,000, of which 1,250,000 settled in urban communities east and west. The rural population east of the Great Lakes actually decreased by 47,000, while 600,000 people went on the land between Lake Superior and the Pacific coast. These 600,000 devoted themselves to the raising of wheat, oats, flax and barley, and in this way they became consumers, instead of producers, so far as the majority of foods for the table are concerned. In this respect, therefore, the consumers have increased in numbers much more rapidly than the producers. This development alone accounts in large measure for the cost of living to-day.

To meet this difficulty to some extent at least, Hon. Martin Burrell proposes to spend $10,000,000 in promoting the adoption of modern farming methods in all the provinces. In addition there must be extended bank credits for farmers, especially in the West, so that they may go into mixed farming as fast as they wish to. We should also have a parcels post system to facilitate the sending of food through the mails, and more important still, widespread co-operation amongst farmers in the sale and amongst city dwellers in the purchase of farm products.

No stronger evidence that the Canadian home market has been none too highly appraised by the Canadian farmer has been furnished than the list of exports and imports of some leading farm products during the ten months prior to January 31. Here is a table showing some interesting comparisons:

	Exports	Imports
Eggs (dozen)	128,018	11,007,345
Butter (pounds)	636,112	5,714,406
Beans (value in $)	6,451	596,104
Peas (value in $)	140,773	210,148
Rye (value in $)	603	54,524

So far as these products are concerned the Canadian market is more important to the United States farmer than the United States market to the Canadian farmer.

WILL CONVERT STRAW INTO USEFUL FUEL

A Regina Man Claims to Have Discovered a Process for the Manufacture of Briquettes

Professor Andrews, of Regina, bids fair to go down to posterity as one of the most practical and far-reaching benefactors of the Western Country. In Saskatchewan, Alberta and Manitoba millions of dollars' worth of straw is annually burned out of the way, in the same manner, and for the same reason that in the pioneer days of the eastern provinces millions of dollars' worth of magnificent timber were destroyed for want of a market.

If Professor Andrews' invention for turning this straw into little fuel briquettes proves to be what he claims it is, a problem which has vexed the soul of the Western farmer for many years has been satisfactorily solved; and waste has been turned into value in the most remarkably beneficial manner.

The first briquette, Professor Andrews has produced, is very small—not much bigger than a crown piece. It is black, and as far as appearance goes might be made out of coal dust. The farmer if he has power on his farm can make the briquettes himself. He can drive his threshing machine, and make briquettes at the same time.

The Doctor claims that the cost is small, and that the equivalent of eighty tons of anthracite, or 160 tons of Saskatchewan lignite coal, can be obtained from an average crop of straw grown on a half section of 320 acres. Ten tons of this would warm the farmer's house, but he would be saved the trouble and expense of hauling it from town. The surplus of the briquettes would be available for sale in the towns which also would get cheap fuel instead of dear fuel as at present.

If Professor Andrews' briquette is what he calims for it, he has added millions annually to the wealth of the prairie country; and, as patents go in this commercial age, he should incidentally make a few millions for himself, for he will have done one of the biggest things and solved one of the knottiest of problems.

Snails for Food in Favor

Snails are not as a rule looked upon as luxuries outside of France. The average Englishman regards garden worms with repugnance. Yet in Bristol there is a large and growing trade done in edible snails, and shellfish dealers are clamoring for more than they can possibly obtain. There are between thirty and forty shops in Bristol where cooked snails may be bought, but such is the demand that in the near future snails may become he luxury of the rich. Of course, the eating of snails is an acquired taste, but the habit of eating them, according to Bristol folk, seems to grow rapidly once the repugnance to making a beginning is overcome.

Walk on Air

Pneumatic soles and heels which may be easily attached to and detached from shoes are an English invention.

A Solution of The Road Problem

(By V. B. T. in Canadian Countryman)

The early settlers of Wallace Municipality, in the Province of Manitoba, found a rolling prairie of rich clay loam cut by a few creeks and some ravines leading to the Assiniboine River. Woods are plentiful in the ravines and the river valley. On the higher land, where a slough offered protection against fire, a few white poplars grew in widely isolated clumps, and only the wolf willow in patches broke the wide undulating expanse of grass. Across this area of undeveloped agricultural richness the trader had for years cut a trail with his creaking carts. Arrowheads, found today in the plowed fields, tell of a time when the Indians took their toll of the herds of buffalo, which frequented the rich pasture.

Years have gone by. The old timer, though he may only be a man in his prime, looks back at the good old days when all was new, and strange to say, see nothing very remarkable in the wonderful achievements of a brief twenty-five or thirty years. The old trails are replaced with graded roads, though the change was retarded many years because the old trails were good and because they were the short cuts across sections to town, haymeadow, wood lot, or school house. Shacks have vanished, and in their stead are substantial farm buildings. Prairie sod is still to be found, but in limited quantities. Most of it has been turned by the plow and has produced many crops of hard wheat. Where trees were few and far between on the open plain, the shelter belts of the farmsteads and volunteer bluffs of poplar have produced such a pleasing change one wonders whether this can be the same place as of old—often fire swept—prairie. This, and much more, has resulted from the enterprise and pluck of a people who are being recognized as leaders in agricultural and municipal progress.

First came the home and farm development, and almost simultaneously road improvement, the building of bridges and schools, the latter serving many years for church. Then came better roads, the rural telephone and, by co-operation, creameries at Elkhorn and Virden, and a splendid hospital in Virden.

It was quite natural to expect that the municipality which was first to install rural telephones would lead again in the next great municipal problem, that is, the building of scientifically constructed good roads. The councillors of Wallace have taken cognizance of the generous provisions for assistance in road building offered by the Manitoba Government, and have had plans prepared by a government engineer for a road system that provides a broad foundation for future years.

In a grain growing country good roads and short hauls add many dollars to the profits on grain marketed. The C.P.R. and C.N.R. with their main lines and branches serve this district so well that few need draw grain a greater distance than eight miles. Modern highways are now an assured convenience of the early future. The people of Wallace Municipality have by good majorities endorsed the by-laws submitted by their council under the provisions of the Good Roads Act and the Highways Improvement Act.

The carrying of this important, and, in the West, comparatively untried measure of road construction is due in a large degree to the frank, clear educational campaign carried on by Reeve Ivens and the councillors, backed by those citizens who take a public spirited interest in the larger issues of municipal affairs.

The ratepayers were presented by the Reeve with a very lucid synopsis of the "Manitoba Good Roads Act" from which anyone interested could get a clear idea of the Government standard for good roads and its methods of helping municipalities in their construction. Following this very necessary information were the plans of the council for construction, maintenance and financing, as below:

(1) "It is proposed to build about 35 miles of main highway as defined by and under the Highway Improvement Act. This will form part of a great main road across the province which has already been begun by some municipalities lying immediately west of Winnipeg. In Wallace this road will be cleared of all brush the full width of the road allowance, graded 18 feet wide on top, and gravelled at the rate of 1,000 cubic yards per mile. All wooden bridges and culverts will be replaced by concrete. The cost has been estimated by a government engineer to be $76,000. The provincial government will contribute two-thirds of this amount, or about $51,000. The municipality will pay the other third, $25,000, which it is proposed to raise by 30 year debentures guaranteed by the Government. The amount required annually to pay principal and interest at 4½ per cent. would be $1,565.48. This is a very high standard road, and would require three or four years to complete. The gravel would be put on in two coats, the second probably three or four years after the first. Very little repairs will be required and the bridges would be permanent."

(2) "To build 161 miles of main municipal roads under the Good Roads Act. The roads to be placed in such a way that very few people will be more than two miles from one of them, and so that they will lead to the towns and shipping points. They will be cleared entirely of brush, graded fifteen feet wide on top, gravelled for three miles in each direction, and from Virden to Elkhorn, two miles from Hargrave and Kirkella and one mile from Harmsworth, and in all places where traffic has to keep the grade in wet weather. Parts where traffic can turn on the grass in wet weather will not be gravelled at present except in the units named above. The costof these municipal roads is estimated at $125,000.00, which it is proposed to raise by the issue of 40 year Government guaranteed debentures at 4½ per cent. interest. The amount required annually to pay principal and interest will be $6,792.90.

The total amount required to pay off the two systems outlined will be $8,358.38 annually."

"It has been declared by a competent road expert 'That any attempt to build up from current revenue a system of good roads that will in any way meet the requirements of the Province of Manitoba is out of the question.'"

The municipality is raising by direst taxation for road building annually about $15,000, besides statute labor. It is estimated that at least half of this is used on the roads which in the new scheme are marked out as main roads and the other half in opening side roads. If the proposed roads are built, $7,000.00 annually and statute labor will be sufficient for opening side roads and repairing. Add to this $8,000.00 for repayment of principal and interest and it will be seen that $15,000.00 annually will finance the new system.

In this way the taxes may be kept down to the present level and the people may enjoy the use of good roads instead of enduring indifferent ones. They may also avoid the heavy indirect tax now paid in waste of time drawing small loads, wear and tear on horses, harness and wagons."

SENATE VOTES TO PUT WHEAT ON FREE LIST.

Washington, Aug. 15.—The Democratic amendment putting wheat on the free list, and striking out the 10 per cent. bushel tariff rate, fixed by the house Democrats was adopted by the senate Thursday by a vote of 37 to 32. A subsequent motion by Senator Gronna to fix a duty of six cents per bushel on wheat and one-eighth of a cent per pound on wheat flour was defeated 37 to 31.

The Democrats also defeated an amendment proposed by Senator Gronna to restore the three cents duty on eggs contained in the house bill.

The vote was 35 to 28 in favor of the senate committee's proposal for free eggs.

STOCK OWNERS are advised that Black-leg Vaccine, manufactured by the Health of Animals Branch of the Dominion Department of Agriculture, may be obtained in the Province of Alberta from Dr. J. C. Hargrave at Medicine Hat. The price of this vaccine is 5cts. per dose in any number of doses, and the instrument for its insertion beneath the skin may also be obtained for the sum of 50cts. (A bulletin may be procured from Dr. Hargrave describing this disease and the procedure to be followed, with a view to protection). Orders for vaccine may be sent by wire to the officer above named and will receive prompt attention.

THE DAY HARDWARE CO.

Historical Sketch of Alberta College

Alberta College is one of the oldest educational institutions in the Province of Alberta. It was founded in June, 1903, by J. H. Riddell, B.A., B.D., at that time Professor in Wesley College, Winnipeg. The first classes were held in a room over Johnstone Walker's store on Jasper Avenue, October 5th, 1903, and within a short time two extra teachers were required, one of them being Mr. C. E. Race, B.A., C.A., now registrar of the University of Alberta.

The College prospects were good from the first, and the Board erected the first College building in Northern Alberta, 1904. October of that year found the new building crowded to overflowing. A new and large addition was made the following summer, but this was still inadequate to meet the increasing demands. Then the old McDougall church, the first Protestant church to be erected north of the North Saskatchewan River, was fitted up, and a boys' dormitory named McDougall, after the pioneer Methodist Missionary, George McDougall, was erected. Each year found the new building crowded to overflowing and a larger staff necessary to carry on the work.

In 1910 the Board began the erection of a Theological College on the University grounds. This college was the first building to be occupied on the University site. After one year it was found necessary to enlarge this building to make accommodation for the ever-increasing number of students. The present building has rooms for one hundred and thirty students, and has cost in the neighborhood of $175,000. In the near future a ladies' residence with a thoroughly modern equipment will be erected on the University grounds, near the site of the present college.

Alberta College has not confined itself to any one department, but has always endeavored to help every student who has sought its aid. An academic course was first established. This was followed closely by commercial, music, vocal expression, physical culture and matriculation courses. Until 1908 the college was affiliated with McGill University, and the first two years of the arts course were undertaken. In 1908, when the University of Alberta was established, the college became affiliated with the provincial institution, and sent its students to the university for their arts work. In 1909 theology was added to the course of studies, and in the spring of 1911 this work was transferred to the South Side College. Last year two other departments, domestic science and art, were added, and the results were most encouraging.

The number of students has increased at a rapid rate. The registration for the first year was seventy-three, while last year the enrolment in all departments in the North Side College was over eight hundred, and over two hundred in the South Side College.

Owing to the rapid expansion and phenomenal development of the work on both sides of the river, it was thought advisable to separate the work of the two colleges. This was done, and a new Board was formed to carry on the work on the North Side, while the old Board remains in control of the Theological College on the South Side. Rev. F. Stacey McCall, B.A., an honor graduate of the first graduating class of the University of Alberta was appointed principal of the North Side College and began his duties July first.

The New Board, while carrying on the work of the college on the North Side for the present year, hope to transfer it in the near future to the recently acquired site of 125 acres on the Warner Estate, which is beautifully situated on the south bank of the Saskatchewan River. Plans are being made at present for the erection of buildings where, in addition to the work already taken in the various departments, there will be added courses in technical and industrial education.

Since Alberta College opened its doors ten years ago, over four thousand students have been enrolled in the different departments. These have gathered here from all points of the compass for a period of preparation and have gone to play their part in the upbuilding of empire in our great Dominion.

Now, as the College enters upon its eleventh year, the future promises even greater things. The strong faith, the clear vision and wisdom of the men who have laid the foundation of this college will continue to bear fruit in increased efficiency in every department of college work.

Is Winnipeg "Hard Up?"

(From the Winnipeg Telegram)

The larger of the two circuses which arrived in Winnipeg on Monday took $35,000 out when they left on Monday night. At each of the two performances people were turned away. In the evening 6,000 more people were admitted than could be accommodated with seats. As a result, the performance had to be curtailed. The smaller of the two carried $15,700 out of Winnipeg, the result of six performances. On Monday night, with these two big amusement companies drawing thousands, a big all-star production at a local theatre played to an $1,800 house, while the two large vaudeville theatres were crowded, and two score of moving picture theatres were doing a rushing business. Is this an evidence of prosperity or business depression? Is Winnipeg "hard up?"

Western Farmers Are Benefitting

DOLLAR WHEAT IN WINNIPEG

On Same Day The Price in Minneapolis Was Fifteen Cents Less. Liberals Dare Not Talk Reciprocity. The U. S. Market is Congested Already.

What farmer in the West would have reciprocity? Last week there was a spread of fifteen cents in the price of No. 1 Northern wheat between Minneapolis and Winnipeg. Here are the figures quoted from the Winnipeg Free Press:

At Winnipeg, July Closed, $1.00

At Minneapolis, July closed .84⅞

For nearly a year now the Winnipeg price has been ranging higher than the Minneapolis price. The much talked-of American wheat market for the western farmer is a myth. These figures prove it, and what emphasises it more is the fact that the American farmer last year had millions of bushels of wheat for export.

EXPLANATION COMING.

The Liberal press which tried to impose the reciprocity pact on Canada ought now to explain to the western farmer just how many millions of dollars this difference in price between Winnipeg and Minneapolis saves the producer of grain on this side with a crop in sight which promises to break all records. The situation in Minneapolis and other American wheat centres today is that the elevators are filled with old wheat for which there is no market at home. The new spring wheat is already pouring into a congested market. In one day last week over 250 cars of spring wheat arrived in Kansas City. With a domestic market already congested this means that grain must ultimately go into the export field and trade figures show that the United States shipped last year some 146,000,000 bushels to Europe. The reciprocity treaty would have opened the Canadian market for this surplus.

Judge Forbes Died at Laggan Sunday

Was Well Known in West—Came From Nova Scotia In 1885.

Banff, Alta., Aug. 11.—Judge F. F. Forbes, of Prince Albert, died at Laggan early Sunday morning of diabetes, after an illness of five days. The body will be shipped to Prince Albert.

His honor Frederick Fraser Forbes was appointed district judge for the judicial district of Moosomin, Saskatchewan, Nov. 21, 1907. He came to the west in 1885 and practiced at the Regina bar, where he was also registrar of the Assiniboia land registration district. He was born in Liverpool, Nova Scotia, June, 1854, and educated at the public schools and Acadia university. He was called to the bar of Nova Scotia in 1882.

SPORT NOTES

After reading in the Calgary papers about the football league meeting in that city, and its decision to replay the Hillios and Callies match, left unfinished owing to darkness, we are more than ever convinced that it is time the representatives of the provinces got together and formed a Dominion Association after the manner of the English Association. We think that the decision of the Calgary League to re-play that match was a just one, and the only thing that could have been done, and we are surprised that it had to be done by the casting vote of the chairman. The question of who was leading, or who was not, should have nothing to do with the matter. The match was stopped owing to natural causes, and should be re-played. It's no use blaming the referee. He did what he considered right, and should be supported in his decision. The football representatives themselves themselves are the only people to blame. It is up to them to have rules made governing these different points likely to happen in the game. We, in this country, who have the game at heart, can well afford to copy the English Association rules in their entirety, and not feel cheap or jealous about it.

The Australian cricketers were defeated for the first time on their tour by the Germantown cricketers of Philadelphia, who won a two days' match by four wickets, the winners playing 12 men.

The world's one-hour, unpaced, bicycle record was broken by Marcel Berehet at Paris on August 4th. He covered a distance of 26.35 miles. The American record for the distance is 25 miles, 600 yards.

Sam Abbey, Red Deer United's popular centre half, has gone to Calgary. Sam will be missed in football circles here. Red Deer's loss will be Calgary's gain. It will be a lucky team that secures Sam's services for next season.

The Calgary Callies and Hillhurst have been ordered to replay their league match, stopped seven minutes from time through darkness.

Are the United keeping in training for their championship match: "Ask the League officials."

Edmonton, Alta., Aug. 15.—Harvesting operations are under way in various parts of central Alberta, and within a week big batteries of cutting machines will be far flung in this district. Reports received by the department of agriculture and the board of trade here indicate that the grain crop throughout the province will be the largest ever gathered. Its farm value is placed at from $53,000,000 to $55,000,000, as compared with $51,000,000 in 1912. This is attributed to the increased acreage and larger acre yields. The three transcontinental railroads operating in this district have completed arrangements to supply sufficient equipment to move the crops without delay. Wholesale and retail houses throughout the province report increases in business in consequence of the big crop.

CLASSIFIED ADVERTISEMENTS

WANTED.

General servant girl. Apply to Mr. James Bannerman. August 13.

WANTED.

A competent girl to do general housework. Apply to Mrs. D. G. Horn, 368, 1st Street South-East. Red Deer, Aug. 13, tf.

Join The "Good Fellows"

AND LET'S GO HUNTING! FORGET CARE--BURY WORRY

We are ready for the 23rd---the opening of the Game Season---with a BIGGER, BRIGHTER and BETTER STOCK than ever. Come and see the Guns, Handle Them---They Invite Your Attention.

Single Barrel Hammer Guns

No. 10. Victor Non-Ejector, for black powder, case hardened frame, centre rebounding hammer, pistol grip stock, fancy butt plate, 12 gauge. Price - - - - - - **$7.00**

No. 11. Victor Ejector, same gun as above, excepting this is an ejector. Price - - - - - - **$8.00**

No. 215. This is the best gun for the money we know of. If you want something thoroughly reliable for your boys, and a gun that will hit as hard as your own $75 or $100 double barrel, buy him this. It has an extra heavy breech, plain steel full choked barrel, fine black walnut stock and rubber butt plate, automatic ejector. **11.00**

Repeating Shotguns

THE NATIONAL

This is our Special. We searched the market for a reliable repeater to sell at $25 and this gun is the result. Last season an old hunter on whome we could depend came in to buy a well known higher priced "pump" gun, and we asked him to take this on approval, use it for the season, and then pay for it if satisfied, otherwise retuan it. He came in after the season was over and paid for it—saying it was one of the best guns he had ever put to his shoulder. Name furnished on application. The barrels, which are strictly interchangeable, are rolled blue steel, chambered for 2¾ in., or 2⅝ inch shells, bored for black or smokeless powders, fully tested for excessive loads. The full choke barrels are guaranteed to put 325 pellets in a 30 inch circle at 40 yards, using 1⅛ oz. of No. 8 shot. Stocks are made of straight grain black walnut, oil finished, 13½ in. long, 1⅝ in. drop at comb and 2½ in. drop at heel. Hard rubber butt plate. The forearms are also of black walnut, cross lined for quick handling. Mabazine holds 5 shells and with one in the chamber makes 6 shots. We deliver this gun to any Express Co.'s office in Alberta or Saskatchewan free of charge. Price only - - **$25**

We have also in stock the following makes of repeating shot guns that are so widely known that we need not describe them.

WINCHESTER, STEVENS, REMINGTON.

All in 12 ga., 30 in. barrels. Other gauges and lengths can be quickly procured.

Small Bore Rifles

Little Scout .22 cal. - - - - -	3.25
Remington No 6 .22 cal. - - - -	5 00
Winchester 1902 .22 cal. - - - -	5.00
Savage Jr. .22 cal. - - - - -	5.50
Savage Mod. 1911, 20 shots, .22 cal. - - -	8.50
Winchester Mod. 1906 .22 cal. - - - -	12.50
Remington No. 12 .22 cal. - - - -	14.00

Double Barrel Hammer Guns

No. 5012. Twist barrels, left choked, back action, rebounding locks, top snap, circular hammers, plain extension rib, checkered pistol grip and fore-end. 12 ga. 30 in. barrels. Price - **10.00**

No. 5312. Laminated steel barrels, bar action, case hardened mountings, Greener cross bolt matted extension rib, 12 ga. 30 in. barrels. Price - - - - **12.50**

No. O. Armory steel barrels, specially bored for smokeless or black powder, matted extehsion rib, both barrels choke bored. All parts made of drop forgings (no castings used), top lever action, bar rebounding locks, spiral main spring, Deely and Eage fore-end 12 ga. 30 in. barrels. Price - - **14.00**

No. 2. Same as above, with genuine twist barrels. Price **17.50**

No. 3. Damascus barrels, specially bored for either smokeless or black powder, matted extension rib, both barrels choke bored. All parts are made of drop forgings, (no castings used). Top lever action, bar rebounding locks, spiral main spring, D. & E. fore end. Guarantees not to shoot loose, 12 ga. 30 in. barrels, weighing from 7¼ to 8 lbs. Price - - - - **20.00**

No. 25 Leader Grade. The Tobin hammer gun, constructed on the same action and frame model of the "Simplex" hammerless pattern with the same giant cross bolt fastening and compensating fore-end joint, easily makes it the superior of any hammer gun ever put on the market. For the shooter who requires the dependable kind that can be relied upon where a gun means business, the Leader grade hammer gun stands first cecice. Stocks of selected walnut, half pistol grip, length 14 1-8, drop 2½ to 3 1-3 inches. Barrels of "Trojan" Nitro Steel, 12 gauge, 30 in. Weight 7 to 8 lbs.

EAVER"

V. H. Parker Bros. celebrated Vulcan grade—a strictly high grade gun at a very low price—indeed we believe that at the price there is no better made in the world. We have sold them for 12 years and in this time have never known one to go out of order or to require 10 cents worth of repairs. This is a unique record and is the most eloquent tribute we can pay it. Barrels are of Vulcan steel, an exceptionally strong, high class steel, and a very satisfactory barrel. These guns are fitted with care and are the equal in every respect of many guns of other makes at twice the price. 12ga. 30in. barrel

Plain Ejector	$55
Automatic Ejector	$80

SHOOTERS SUNDRIES

Our Stock is very complete this year, and includes a nice variety of such as----

Local Happenings in North Red Deer

D. Stewart, of Calgary, was in town for a few days visiting Mr. and Mrs. Farnell.

Miss N. G. Fallow has got back to town after spending her vacation with her cousin, Mrs. Young, of Macleod, also visiting several places in B.C.

Mrs. Gilbert McKenzie and Mrs. D. Taylor returned Saturday from their trip to Edmonton, where they were visiting Mrs. J. Ermin and her sister. They were accompanied by H. A. McKenzie, who went further north on business.

Miss M. J. Fallow, who was stenographer for the Great West Lumber Co., and O. L. Fallow, left Monday last for Calgary, where they have both accepted positions in that city.

Miss D. McAllister, of Calgary, was a guest of the Misses Fallows last week on her return from Saskatoon.

The Great West Lumber Co. mill is now closed, and Mr. Meredith and Mr. Kent have gone up river to help Mr. McKenzie on the drive.

Evergreen

August 18, 1913.

C. C. Vanhorn went to Red Deer on Wednesday. He took a load of freight in with him, and came home Thursday last.

James Boles went out to work last week.

A large crowd attended the sale at Wm. Vanhorn's on August 13th, people coming from Raven, Pitcox, Evarts, Stauffer, and all outside points. The sale was a good one for this time of year.

What might have been a serious accident happened the other day. Chas. Vanhorn was riding a two-year-old colt to Evarts, and the colt became frightened and jumped over a three-strand fence, and then started kicking. Charles got out lucky, and the colt with but a few wire cuts.

Paul Lecerf will take Charles C. Vanhorn's place as R. M. carrier for Evergreen via Evarts. Charles has carried the mail for nearly four years, and thinks he has had enough of it.

Miss Stephanie Papeck and Miss Mary Gaetz are out here visiting a few friends.

Paul Lecerf was over to Raven for a couple of days.

Wm. Hardicka was in Red Deer last week.

Frank Papeck has left for Rocky Mountain House to work.

POPLAR RIDGE.

School continued Monday, with Mr. Sands, of London, England, as teacher.

Ed. Burns left last Saturday for Pleasington, Alta., for the harvest.

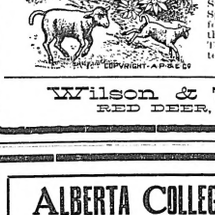

Mrs. Soderman and family, of England, arrived last week.

Mrs. O. E. Austin, of Whittenberg, is visiting her father-in-law, H. L. Austin.

Mr. G. Gazenell, of Rocky Mountain House, spent a few days with Mr. Staples recently.

Don't forget the service, Sunday, August 20th, at 3 p.m.

The West Furniture Co. Ltd.

ALBERTA COLLEGE EDMONTON

NORTH SIDE, Residential School.

COURSES: COMMERCIAL, including Book-keeping, Shorthand, Typewriting, Civil Service and Telegraphy. A full Conservatory Course in Instrumental and Vocal Music. A general Academic Course up to and including Grade IX of the public schools. Expression and Physical Culture, Domestic Science and Fine Arts. Experienced staff of teachers. Rates reasonable. Term opens September 2. For illustrated calendar and information apply to Rev. J. R. Riddell, B.A., B.D., D.D., President; or Rev. F. S. McCall, B.A., Principal.

SOUTH SIDE, Beautiful residence on the University Grounds, one of the beauty spots of Alberta. Only students over 16 admitted. The students are in close touch with all the Academic life of the University of Alberta. The social life is just what is required for young persons of that age. Courses in Grades X and XI with special emphasis on Matriculation. Full Conservatory Courses in Vocal and Instrumental Music, Elocution, Physical Culture and art. A young lady can take Music and Elocution at the College, and English at the University. Rates reasonable. Opens September 4th. For calendar and information apply to Rev. G. D. Misener, B.A., Registrar; or J. R. Riddell, B.A., B.D., D.D., Principal, Aug 20 4.w.

Local and General

L. B. Griffiths, wife and family are back from holidaying at the Lake.

Rev. John Bennett, wife and family returned from Sylvan Lake on Monday last.

Miss Alice Walker returned to Red Deer on Wednesday last from visiting at the Lake.

Miss Murray, one of Moose Jaw's public school teachers, is visiting Dr. Thornton's family on the farm.

The evening attractions at the Exhibition Grounds will be a big feature of the fair this year.

Miss H. Lewis, of Edmonton, is looking up old friends in Red Deer before proceeding to her home in Toronto.

Mrs. J. J. Dale and family returned from the Lake on Thursday last, where they have been camping for the past month.

A drove of about 200 mules passed through Red Deer on Friday on their way to winter quarters. They had been working on the railways to the south.

The ladies' amateur night at the Empress Theatre, Friday night last, was well patronized. The management will do well to insist on no whistling. It gets on the nerves.

Mr. and Mrs. Mann, of Aylmer, Ontario, are expected to arrive today on a months' visit to their sons and daughter, James, Arthur and Hazel Mann.

H. H. Gaetz, wife and family and R. L. Gaetz, wife and family returned to Red Deer from the coast on Friday last. They will again take up their residence in the city.

Farmers needing Plymouth twine had better place their orders at once, as it is going out very fast. A car load of McLaughlin carriages expected here in a few days.—W. Hammond, Massey-Harris agent.

The Agricultural Society had to call in the services of C. T. Eline last week end to build forty extra box stalls at the exhibition grounds to enable them to accommodate the entries arriving hatly.

His Honor Judge Lees and F. S. Simpson, Clerk of the Court, arrive back in Red Deer on Saturday from a lengthy trip through the Peace River country, where the Judge has been holding court.

H. B. Brason, who has been visiting his daughter and friends in Red Deer, returned to Prince Edward Island on Friday last. He says he is charmed with Red Deer district and intends keeping in touch with it.

Miss Ethel Thornton and Miss Henrietta Thornton have returned from Edmonton, where they were visiting Miss Treadway, who spent her holidays on the farm with them.

The North End Grocery will be under the control of A. W. Perry & Co. from 1st of September, and all orders, small and great, will be cheerfully received and attended to promptly by the new firm.

W. B. Brandt, inspector of the Western Canada Fire Underwriters' Association, is in the city getting out a new survey and map for fire insurance purposes, when the city will be re-rated by the Board of Underwriters.

C. T. Eline, contractor, is building a spacious coal shed for Hewson & Sons alongside the track. The shed is 50 x 24 x 12 feet, and will hold 1,000 tons of coal. This will enable the city to be pretty sure of a good supply of coal on hand.

E. R. Hill, who has been through the east country during the past two weeks, reports that he never saw it looking better. The crops were all that could be desired, grain cutting had commenced, and there was hay in abundance, thousands of tons being already in stack.

R. W. Harrison, of the W. E. Lord Co., returned from his holiday trip on Saturday last. He took the Crow's Nest Pass route to Nelson, B.C., and returned by the Arrowhead Lakes and the main line of the C.P.R. He was greatly pleased with his outing.

L. M. Gaetz, with his wife and family, moved from Red Deer to Edmonton on Monday, where their future residence will be. Mr. Gaetz is going into the retail business in Edmonton, where there is a much larger scope. L. M. was a great favorite in musical, dramatic and baseball circles, and he, together with Mrs. Gaetz, will be missed in the city. The wishes of all their friends go with them for a prosperous future.

Mr. and Mrs. Robert Helme, of Netherlea, Lancaster, England, and Mr. and Mrs. J. Grant MacGregor were week end guests of Mr. and Mrs. G. W. Greene at Sylvan Lake. Mr. Helme, who is a member of the James Helme Co., of Lancaster, manufacturers, is interested in the Red Deer Holdings Ltd., who are establishing nurseries, foundries, etc., in the city of Red Deer. Mr. Helme is also largely interested in other developments in British Columbia.

The regular meeting of the home department of the Women's Missionary Society will be held in the church hall, Friday, 3.30 p.m. Mrs. McDougald will give a paper on "Vegreville Hospital and Ruthenian Schools," and Mrs. Keith a report of the annual meeting in Toronto. School will re-open September 2nd. Parents are requested to see that their children are in attendance promptly in order to avoid any difficulties in regard to carrying out the Truancy Act.

D. Barto, manager for Nesbitt & Miller, contractors for the armory, arrived in the city on Monday, and is busy erecting an office and store room on the City Square close to the armory.

The Red Deer troop of Boy Scouts returned from Sylvan Lake on Monday last, where they have been in camp in charge of Scoutmaster A. R. Gibson. They report having had a first class time.

H. C. Donlevy, agent at the C.P.R., left for Montreal and other points in the east yesterday on his holidays. Mrs. Donlevy has been east for some time now, and will return with Mr. Donlevy.

Messrs. Cooper & Baines, of Nelson, B.C., have opened up cleaning and pressing rooms in the building vacated by Chapman & Page, next Bank of Commerce. All work guaranteed. Give us a share of your patronage.

G. A. Madden, of Springfield, Illinois, U.S.A., has purchased the half-section of land opposite J. J. Richards. Mr. Madden, who is a retired merchant, intends making his home in Red Deer, and has placed Mr. Nichols, of Winnipeg, in charge of the farm, who is already at work upon it.

You cannot beat the Lyric Theatre for a couple of hours' enjoyment any evening this week. The management is putting on a new feature every evening. The pictures are better than has ever been seen before in Red Deer, and the price is just the same, 10c and 15c. Matinee Saturday afternoon. Mixed orchestra of six pieces.

J. Edward Welton, organist and choirmaster of the Leonard Gaetz Memorial Methodist Church, will be pleased to receive applications from persons desiring to be members of the choir during the coming year. Practices will be resumed on Thursday evening, the 4th of September, and every effort will be made to have a larger and better choir than ever. All strangers accustomed to choir work are particularly requested to communicate with Mr. Welton, residence directly opposite the church. Phone 86.

When the Made-in-Canada train was here they announced that a competition was on, namely, that the person guessing the number nearest the correct number of people attending the train during its western tour should win a splendid French Wilton rug valued at $50.00, exactly similar to the one shown on the train. We are pleased to learn that a Red Deer man won the prize, in the person of Ronald Comfort, who guessed 231,675, which was nearest to the correct number of 231,366. The rug was donated by the Toronto Manufacturing Co. for the special competition, and will be on exhibition in the window of the Best Furniture Co. for a time.

Wedding rings and marriage licenses can be purchased at Snell's jewelry store.

Lost—A silver fob. Finder rewarded for returning same to Brazier's novelty store.

Miss Etta Smith and Miss Florence Welton have been appointed to the Red Deer public school staff in place of Misses Hill and McLean, resigned.

Hon. R. Rogers Says Bankers Are Too Pessimistic

Up to These Institutions to See Western Farmers Get Cheap Money

Prince Albert, Aug. 14.—Hon. Robt. Rogers, at the conclusion of his address here last night, spoke of the recently enacted bank legislation. Referring to the responsibility now placed on banks he said that during the last few months these financial institutions have shown themselves to be exceedingly mercurial. Sometimes they were optimistic, sometimes they were pessimistic. During the past few months they had been too pessimistic.

"I cannot see why the banks should take such a pessimistic view of our position when today we are reaping the most profitable crop that Canada has ever known. The responsibility will rest upon the banking institutions to see that the farmers get sufficient money to take care of this great crop so that it may be marketed in the most fair and economical manner."

Mrs. W. A. R. Kerr Drowning Victim

Mrs. W. A. R. Kerr, wife of Professor Kerr, of Alberta University, Edmonton, was the victim in a fatal drowning accident at North Cooking Lake last Sunday evening.

Five people were out in a sail boat and were struck by a squall. The boat capsized. Two of the party, including Mrs. Kerr, who was an especially strong swimmer, attempted to swim ashore only a short distance away, but for some unknown reason Mrs. Kerr went down.

Mrs. Kerr was at Cooking Lake last Wednesday with her little boy and sister, Miss Cross, of Toronto, who has been visiting her, to be the guest of Mrs. R. W. Cautley at the Cautley summer place, White Sand Beach.

Red Deer Gun Club Annual Shoot

The Red Deer Gun Club held their annual shoot on Monday night last, this being the last shoot of the season. There was keen competition in every event. Fred Lund, who had won the silver cup the two previous seasons, had only to win it this time to make it his own, but he did not manage to do it. The following is the result of the shooting:

1st—SWEEP, 20 TARGETS.

1st, J. M. Campbell 18, gun case, donated by The Nobels Powder Co.
2nd, A. T. Stephenson 18, cap and 75 shells, donated by Day Hardware Co.
3rd, Dr. Plaxton 17, hat, donated by McLean Bros.

2nd—SWEEP, 20 TARGETS.

1st, Dr. Plaxton 19, 150 shells, donated by Dominion Cartridge Co.
2nd, G. B. Parker 17, pair cuff links, donated by H. H. Humber.
3rd, J. M. Campbell 16, pipe, donated by W. J. Hyde.

3rd—25 TARGETS (Championship).

1st, Dr. Plaxton 23, silver cup and gun case, donated by W. H. Plaxton.
2nd, A. T. Stephenson 23, shooting coat, donated by Smith & Gaetz.
3rd, W. J. Hyde 22, 125 shells, donated by Dominion Cartridge Co.
4th, V. S. Day 20, 75 shells, donated by Dominion Cartridge Co.
5th, G. S. Ware 20, bottle Scotch, donated by Alberta Hotel.

4th—SWEEP, 20 TARGETS.

1st, Dr. Plaxton 19, 150 shells, donated by Dominion Cartridge Co.
2nd, W. J. Hyde 12, hat, donated by Brown & Fulton.
3rd, F. L. Lund 12, tie, donated by J. M. Carseadden.

High average—Dr. Plaxton, over 90 per cent., bottle Scotch, donated by H. R. Arnold.

Long run—Dr. Plaxton, run of 23, box cigars, donated by G. Coudsi.

Low man—Capt. Cottingham, hunting dog and box cigars, donated by Gaetz-Cornett and T. Fowler.

North Red Deer Council

The regular meeting of the Council of North Red Deer was held in the village office on Monday evening last, with all members present; and Reeve Kent presiding.

A letter from the Secretary of the Union of Alberta Municipalities was read, announcing the dates of the convention to be the 26th and 27th of August, same to be held at High River. Upon motion of Councillors Webb and Rich, the letter was filed, and no delegates will be sent to represent the village this year.

Doctor Gray was present, and the arrangement made between the 1912 Council and Drs. Collison and Gray, at the time of the typhoid epidemic, was discussed. No definite account for services rendered at that time had been presented, as it was expected that the work would be undertaken then by appointment as Medical Health Officer in the same manner as exists at present, viz., $10.00 per month. It was finally decided by the Council, to the satisfaction of Dr. Gray, to date their present engagement from Sept. 1st, 1912.

Mr. A. Clutterbuck was present and presented his account for $195.75 being made of $81.60, balance of salary due to Feb. 13th, $25.00 for one month's salary in lieu of notice, and $9.15 for police work from 20th October, 1912, to 6th February, 1913. As Mr. Clutterbuck left for England on the 6th of February, the amount of salary owing to that date was $75.00, and there was no question as to this being due him. He had charged the extra week's salary as he claimed he had had to pay this, although, as was explained, the new Secretary-Treasurer assumed his duties on the 7th of February, as by the then Reeve, Mr. McIlwraith. The minutes contained no record of his appointment as police officer for the village, and while there appeared to be an understanding that he should attend to such work when required, no definite remuneration had been agreed upon. The Council considered that since Mr. Clutterbuck had been an applicant for the position of Secretary-Treasurer, his term ceased with the appointment of his successor; but in order to be sure of their ground in this matter, as well as the account for police work, it was decided that these two items be referred to a solicitor for advice.

Council then adjourned till Saturday evening next at 8 o'clock.

The Latest Fishing Story

On Thursday of last week a party, consisting of Hugh Baird, Jack Ramage, D. Taylor and W. Milne, were at the junction of the canal and river, when a large fish was noticed sporting around the boom. After several ineffectual attempts by the party to hook him, Jack volunteered, to walk the boom and hook the fish, or know the reason why. He walked the boom like an artist, and cast in the bait, when the fish, which turned out to be a large buck rat, seized it, and proved too strong for Jack, who over-balanced and took a dive into the not particularly clean water. It was noticed that he regained the dry land on hands and knees, minus rod and fish, and would not even acknowledge the sympathy of his friends.

A Cold World Shut Out
A World of Comfort Shut In

A furnace means more heat from the same amount of fuel, for it is built with the sole idea of giving perfect heat and ventilation. Being out of sight in the basement where it takes up no room, it is not necessary to put any value in beauty or to limit the size.

The room in your house is valuable and figuring the cost of the building, a furnace will pay for itself in the space it saves. Besides it consumes no oxygen, but circulates the air properly and affords a ventilation impossible to secure in any other manner. A house with a furnace rents or sells quicker and it is the only improvement which will bring more than enough additional to pay for itself.

Our furnaces are simple to operate and easy to regulate and having made careful study of the heating question, we will sell you one the proper size for your requirements. This not only means the least cost for a furnace, but the least expense for fuel. Let us give you an estimate and refer you to satisfied customers

The Day Hardware Co'y

THE PLACE OF PRETTY
Homes, Gardens and Lawns!

Red Deer West is not a place of bald prairie, bush or brush.
Red Deer West is a place of pretty homes gardens and lawns.
Red Deer West is a mighty fine place to live, with its high level ground and its convenience to the central part of the city.
If you really want to know about Red Deer West, ask the people who live there. This is the best test of a property.

The Smith Land Co.
